

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MONTLAKE

Conquest STAR UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MontLake Management Limited GBP Retail Class Pooled Shares (IE00BYXLJL19)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek capital appreciation over the long term.

The Sub-Fund will use futures and forward foreign exchange contracts to take long and short exposure to shares, bonds, interest rates and currencies. In broad terms, long investments mean that the Sub-Fund will benefit if prices go up, but lose if prices go down. Conversely, short investments mean that the Sub-Fund will benefit if prices go down, but lose if prices go up.

It is also expected that by using derivatives, the Sub-Fund's long positions may be up to 750% of the net asset value of the Sub-Fund and short positions approximately 575% at any given time.

The Sub-Fund will aim to maintain a relatively constant level of risk. Returns will fluctuate as the Sub-Fund increases or reduces its level of investment in response to changes in the general level of risk in the market.

The Sub-Fund may also invest in collective investment schemes and exchange traded funds which also provide exposure to these asset classes in a way that is consistent with the investment objectives and policies of the Sub-Fund.

The Sub-Fund does not have a particular industry, sector or geographic focus and it invests on a global basis. In particular,

the Sub-Fund's exposure is expected to be obtained mainly by buying or selling derivative contracts on major market indices, interest rates and currencies, rather than by buying or selling specific securities.

You may sell your shares on any day that banks are open in Dublin, Ireland and New York, United States of America. You must submit your application to the Sub-Fund's administrator before 1.00 p.m. three days prior to the business day on which you want to sell your shares.

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are denominated in Sterling and the Sub-Fund is valued in US Dollars, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates against the US Dollars.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk category for this Sub-Fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Derivatives and Leverage Risk: The Sub-Fund uses derivatives to both reduce and offset risk and for investment purposes. Derivatives may be used to expose the Sub-Fund to the potential of a greater return (achieve/create leverage) but this entails a greater risk for your investment.

Liquidity Risk: The Sub-Fund may not be able to sell an investment at the time and price that is most beneficial to the Sub-Fund and

may be unable to raise cash to meet redemption requests as a result.

Credit and Counterparty Risk: The Sub-Fund will invest in derivatives and may invest in bonds. The Sub-Fund is therefore exposed to the risk that the counterparty to the derivative or the issuer of the bond may become unable to meet its financial obligations or declare bankruptcy.

Short Selling Risk: The Sub-Fund will create synthetic short positions through the use of derivatives. Short positions behave differently from long positions, and the Sub-Fund can for example come under pressure to close out short positions at short notice, and before an offsetting long position can mature. This can create unexpected losses from positions that might otherwise have been seen as low risk or well hedged.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

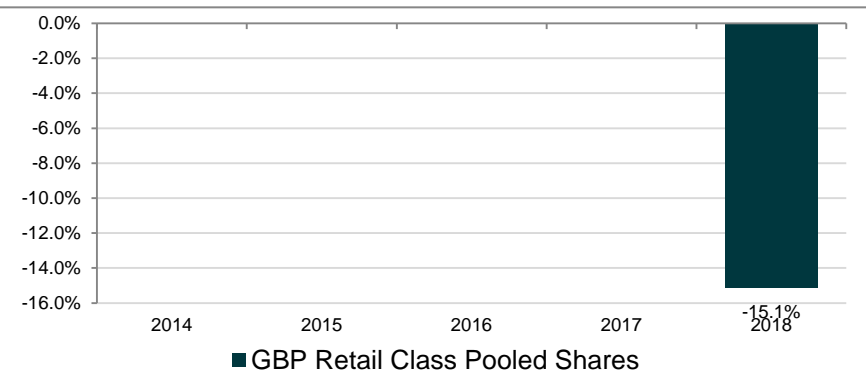

One-off charges taken before or after you invest	
Entry charge	Up to 5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	2.61%
Charges taken from the fund under certain specific conditions	
Performance fee	20.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the twelve months ending December 2018. This figure may vary from year to year. It excludes portfolio transaction costs and performance fees. In the last financial year ending 31 December 2018, the performance fee amounted to 0.00%.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Sterling.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2017. This share class launched on 6 March 2017.

Practical Information

About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

Conquest STAR UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other Sub-Funds on MontLake UCITS Platform ICAV.
