

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

June 2022

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in June were down 3.33% in Euros, down 5.66% USD, and down 2.09% in GBP. For the year, Class A units are down 8.38% in Euros, down 15.77% in USD, and down 6.06% in GBP.

Market conditions remained challenging in June, and although our fund outperformed, it was modestly down for the month. Year to date, the fund has outperformed due to the attractions of its reliable cash flows. The month's most notable feature was the positive contribution from our exposure to Asian Beauty names. As we have discussed on several occasions, prolonged Covid-19 lockdowns in Japan went on far longer than in key Western markets and this simply delayed any recovery well beyond what we have seen elsewhere. However, with each week that passes, Japanese authorities are continuing to lift remaining restrictions and consumers, well known for their cautious approach, are slowly regaining confidence to go out and spend their large savings accumulated through lockdowns. The most recent data from Department Stores (and the number of inbound travellers) are both showing accelerating growth through Q2. We believe the Japanese Prestige Beauty market is 30-40% below its pre-Covid sales, whereas Western Markets are already back to 2019 levels. We are increasingly confident of a strong recovery in our Asian Beauty investments, which is likely to come at a time when the risk to the wider economies in Europe and the US is one of slower growth and a recession. June also sees the annual Paris consumer conference (hosted by Deutsche Bank), the largest investor conference and the last opportunity for companies to pre-release news of any weakness in trading. However, it is clear that the Consumer Staples industry is successfully passing through cost inflation with necessary price increases, with limited (negative) impact on volumes. We expect industry growth to accelerate in Q2/H2, given these dynamics. Our long-term research shows that the industry performs well in times of higher inflation, so we are pleased but not surprised by what we have heard so far. The top three contributors in the month were Pola Orbis, L'Occitane and Kose. The top three detractors were Fever-Tree, Altria and Amorepacific.

Fund Performance Since Inception (EUR)

Class A, net of fees / expenses. Fund launched on 14th Oct 2014 (=100)
