

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

May 2022

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in May were down 1.73% in Euros, down 0.21% USD, and down 0.59% in GBP. For the year, Class A units are down 5.23% in Euros, down 10.72% in USD, and down 4.05% in GBP.

May was relatively stable in terms of performance, particularly after the volatility of the first few months, but it was also a month of very encouraging newsflow for a number of stocks in our portfolio. We were extremely pleased to see our newest holding, BellRing brands (a leading protein shake brand maker), deliver strongly with its first trading update post its recent separation from Post Holdings Inc. It reported 12% growth for Q1 and raised its full year growth outlook. The company is focused on this attractive, and fragmented, nutrition category in the US and is highly cash generative; it paid a large (15%) special dividend on its separation from Post, and we expect significant buy-backs over the medium-term to generate strong returns. Imperial Brands reported H1 results, continuing its journey in rebuilding investor trust in its business model. Despite a dividend yield of 8%, the deleverage programme remains on track and its strong cash flows should allow for significant (5% pa, or more,) buy-backs to recommence later this year. Nomad Foods, the leading European frozen food business, re-confirmed its FY guidance despite the current cost headwinds; the share price rallied 20% over the next week, helped by the confident message on trading as well as the Board highlighting the potential attractions of taking the company private at the current valuation. Fever-Tree was also able to re-confirm its FY guidance of high teens sales growth, including on-going strength in the US. The top three contributors in the month were BellRing Brands, Imperial Brands and Nomad Foods. The top three detractors were Fever Tree, Kose and Lindt.

Fund Performance Since Inception (EUR)

Class A, net of fees / expenses. Fund launched on 14th Oct 2014 (=100)
