

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Burren Global Arbitrage UCITS Fund

a Sub-Fund of MontLake UCITS Platform ICAV managed by Waystone Fund Management (IE) Limited
USD Institutional Founder Class A Shares (IE00BVVB9C38)

Objectives and Investment Policy

Investment Objective

The investment objective of the Sub-Fund is to aim to achieve consistent and positive return on investments in the medium term.

Investment Policy

The Sub-Fund aims to increase the value of your shares by seeking exposure to companies which are subject to or connected with events such as takeovers, mergers, exchange offers, restructurings, liquidations and other extraordinary corporate events that have been publicly announced. The Sub-Fund seeks to profit from the price difference between the market price of the shares of a company prior to a forthcoming event and its expected value upon the completion of such event. The Sub-Fund may also seek to exploit differences in values between companies or different parts of a companies capital structure. The Sub-Fund does not have a specific geographical focus.

It is expected that by using derivatives, the Sub-Fund's long positions may be up to 300% of the net asset value of the Sub-Fund and short positions may be up to 100%.

The Sub-Fund may use swaps, contracts for difference, options forwards and futures to gain long or short exposure to such companies.

Subscription and Redemption

You can sell your shares any day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. three business days before the day on which you want to sell.

Income

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Benchmark

The Sub-Fund is actively managed meaning that the investments are made on a fully discretionary basis. The Sub-Fund may measure its performance relative to the HFRX Event Driven, HFRX Merger Arbitrage indices for reference or investor communication purposes. The Sub-Fund does not operate any form of target to outperform benchmark indices.

Investment Horizon

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

Why is the Sub-Fund in the specific category?

The risk category for this Sub-Fund is set at 3. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

Risk Disclaimer

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund, it may happen that not all material risks were fully captured in the methodology:

Counterparty Risk: A counterparty may fail in paying proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

Event Driven Strategy Risk: The Sub-Fund may make investments in companies that are, among other things, involved in (or the target of) acquisition attempts or tender offers, or are involved in

liquidations, spin-offs, recapitalizations, bankruptcies and similar transactions. In any such investment, there exist a number of risks, including, but not limited to, the risk that the transaction in which the company is involved may be unsuccessful, take considerably longer than expected or will result in a distribution of cash or a new security the value of which is less than the cost of the Sub-Fund's original investment.

Short Selling Risk: A short sale involves the sale of a share that the seller does not own in the hope of purchasing the same share (or a share exchangeable for such share) at a later date at a lower price. The Sub-Fund may hold positions that will rise as the market value falls, and fall as the market value rises. Taking short positions can involve greater risk than investments based on a long position, which reflects a rise or fall in value based on the market value of the shares.

Derivatives and Leverage Risk: The Sub-Fund may use derivatives to create leverage for taking short positions or for other investment and hedging purposes. Whilst this is intended to help the Sub-Fund to manage risk or to take investment positions more efficiently or effectively than could be done otherwise, leverage and shorting can involve the risk of higher volatility, especially if some of the expected offsetting positions between long and short investments do not work as expected, and the Sub-Fund may be exposed to additional risks and costs as a result.

For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after the investment	
Entry charge	None
Exit charge	None
This is the maximum that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out.	
Charges debited to the Fund over a year	
Ongoing charge	3.34%
Charges debited to the Fund under certain specific conditions	
Performance fee	The performance fees are calculated in accordance with the methodology described in the prospectus using a rate of 15.00% of any returns the Fund achieves above the previous highest NAV.

Any entry/exit charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year. It does not include portfolio transaction costs or performance fees.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2015.

This share class has yet to launch.

The value of the Share Class will be calculated in USD.

Practical Information

- The Sub-Fund's assets are held with its depository, Northern Trust Fiduciary Services (Ireland) Limited.
