

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

March 2022

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in March were down 2.26% in Euros, down 3.17% USD, and down 1.33% in GBP. For the year, Class A units are down 6.20% in Euros, down 8.22% in USD, and down 5.59% in GBP.

The shadow of the tragic events unfolding in Ukraine dominated many of the Funds moves in March. We estimate that the funds underlying exposure to Russia and Ukraine to be about 3% with many companies in the portfolio having significantly scaled back, paused, or even disposed their operations in Russia during the month of March. The second-round effect on input costs from the crisis is likely to extend the period of industry price increases and margin weakness. However, history has shown that with ongoing brand support, the stronger companies tend to come out unscathed and typically end up with higher market shares from such periods. We expect this pattern to be repeated. Without much company specific news during the month, it was interesting to note the unusual mix of portfolio moves. Lindt, Campari and Beiersdorf were the top three contributors and have very little in common other than sharing higher valuations. Whilst the top three detractors, L'Occitane, Pola Orbis and Nomad Foods are very much at the low end of the valuation spectrum and for the first two, with gross margins more than 80%, have very limited input inflation concerns. For the portfolio, we would expect the Q1 reporting season to reveal elevated price-led growth dynamics compensating for most, but not all, of the inflation concerns. However as and when the cycle of inflation has passed through the system, the achieved pricing tends to remain, and the margins recover. We feel very confident that the portfolio companies will take the right approach to the current volatility and act responsibly during the current geopolitical crisis.

Fund Performance Since Inception (EUR)

Class A, net of fees / expenses. Fund launched on 14th Oct 2014 (=100)
