

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

January 2020

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover in order to minimise the transactional costs borne by investors.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in January were up 0.09% in Euros, down 1.58% in CHF, down 1.19% in USD and down 0.69% in GBP. For the year, Class A units were up 0.09% in Euros, down 1.58% in CHF, down 1.19% in USD and down 0.69% in GBP.

January was a positive month for the fund in EUR, with ongoing positive contribution from the Tobacco holdings. The strong performance of Tobacco continues to be driven more by depressed valuations and less negative regulatory news flow rather than industry fundamentals, which have remained strong throughout. January also saw us complete our exit of PepsiCo as we became increasingly worried between the disconnect of its valuation and lacklustre earnings growth. The proceeds were partly reinvested in Fever-Tree, on the back of its announcement that it would significantly increase its investments in its US market, a move we have been waiting for and support - the negative share price reaction to this news gave us a good opportunity to increase our holding. In January, we initiated a small position in a new name which we will disclose once complete.

The top 3 contributors in the month were BAT, Imperial Brands, and Campari. The top 3 detractors were Fever-Tree, Nomad Foods and L'Occitane.
