Ronit Global Opportunities UCITS Fund

a Sub-Fund of MontLake UCITS Platform ICAV managed by Waystone Fund Management (IE) Limited (formerly MontLake Management Limited)

USD Institutional Class B Pooled Shares (IE00BK521Q32)

Objectives and Investment Policy

Investment Objective

The investment objective of the Sub-Fund is to seek capital appreciation over the long term by investing on a long and/or short basis.

Investment Policy

The Sub-Fund shall invest on a long and/or short basis, in equities, equity-related securities and fixed income securities either directly or indirectly through the use of derivatives. In broad terms, long investments mean that the Sub-Fund will benefit if prices go up, but lose if prices go down.

The Sub-Fund will have a global scope but will be principally focused on emerging markets. The Sub-Fund does not have a particular industry or sector focus.

It is expected that by using derivatives, the Sub-Fund's long positions will typically be approximately 66% of the net asset value of the Sub-Fund and its short positions approximately 33%.

The Sub-Fund may also invest in collective investment schemes and exchange traded funds which provide exposure to the securities and other investments listed above and that are consistent with the investment objective of the Sub-Fund.

The Sub-Fund may also use derivatives for currency hedging and investment purposes. Derivatives used may include futures, contracts for difference, options, warrants, credit default swaps and/or forward foreign exchange contracts.

Subscription and Redemption

You may sell your shares in the Sub-Fund on any day that banks are open in Ireland, the United Kingdom or the United States. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one business day prior to the business day on which you want to sell.

Income

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Fund Currency

As your shares are denominated in USD and the Sub-Fund is valued in EUR, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates.

Benchmark

The Sub-Fund is actively managed, meaning the Investment Manager actively selects and invests the securities in which the Sub-Fund invests with the aim of meeting the investment objective of the Sub-Fund, and is not managed with reference to any benchmark.

Investment Horizon

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

Why is the Sub-Fund in the specific category?

The risk category for this Sub-Fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

Risk Disclaimer

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund, it may happen that not all material risks were fully captured in the methodology:

Credit Risk: The Sub-Fund may invest in bonds. The Sub-Fund is therefore exposed to the risk that the issuer may become unable to meet its financial obligations or declare bankruptcy.

Liquidity Risk: The Sub-Fund may not be able to sell an investment at the time and price that is most beneficial to the Sub-Fund and may be unable to raise cash to meet redemption requests as a result.

Emerging Markets Risk: Emerging markets that are at an early stage of development typically experience higher levels of return fluctuation than well-established economies. Political and economic challenges may temporarily result in illiquid markets, higher volatility in process and currencies, higher inflation, greater controls on foreign investment, less protection of assets and less developed laws to protect investors.

Leverage Risk: The Sub-Fund uses derivatives to both reduce or "off-set" risk and for investment purposes. Derivatives may be used to expose the Sub-Fund to the potential of a greater return (achieve/create leverage) but this entails a greater risk for your investment.

Short Selling Risk: The Sub-Fund may create synthetic short positions through the use of derivatives. Short positions behave differently from long positions, and the Sub-Fund can for example come under pressure to close out short positions at short notice, and before an offsetting long position can mature. This can create unexpected losses from positions that might otherwise have been seen as low risk or well hedged.

Counterparty Risk: A counterparty may fail in paying proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after the investment	
Entry charge	None
Exit charge	None
This is the maximum that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out.	
Charges debited to the Fund over a year	
Ongoing charge	1.18%
Charges debited to the Fund under certain specific conditions	
Performance fee	The performance fees are calculated in accordance with the methodology described in the prospectus using a rate of 10.00% - 15.00% of any returns the Fund achieves above the previous highest NAV. In the Fund's last financial year the performance fee was 0.36% of the Fund.

Any entry/exit charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the twelve months ending December 2020. This figure may vary from year to year. It excludes portfolio transaction costs and performance fees.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.
