

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

October 2020

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in October were down -4.82% in Euros, down -5.45% in USD, down -5.47% in GBP and down -5.68% in CHF. For the year, Class A units are down -9.81% in Euros, -6.41% in USD, -11.42% in CHF, and -4.11% in GBP.

The fund posted its second most weakest monthly return of the year in October, although there weren't any specific sector or portfolio company developments behind this move. For example Reckitt Benckiser, one of our larger holdings, was a notable detractor in the month despite the company posting 13% organic sales growth in Q3. The company also increased its guidance for the full year and now expects sales growth of over 10%, as well as indicating that some of the new consumer habits around the use of hygiene products would persist beyond the near-term, COVID driven increase. The other notable weakness was in the tobacco stocks, despite both Altria and PMI increasing guidance for the year and a reassuring trading update from Imperial Brands. On a more positive note, we highlighted in our September portfolio commentary that we had invested c.15% of the fund in a number of companies that are major beneficiaries of the rising Chinese consumer demand for prestige beauty products. It is therefore encouraging to note that the top three contributors to the fund in October are all part of our Asian Beauty investments - L'Occitane, Shiseido and Kose. The top 3 detractors in the month were Reckitt Benckiser, Fever-Tree and BAT. Following above average portfolio activity in August and September, there was no trading to report on in October.
