# MONTLAKE

### Ash Park Global Consumer Franchise UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MontLake Management Limited EUR Class E Shares (IE00BZ163469)

## Objectives and Investment Policy

The investment objective of the Sub-Fund is to increase the value of your shares.

The Sub-Fund invests in companies in the food, beverage, tobacco, household and personal care sectors that are listed on global recognised markets. The Sub-Fund may also hold cash or cash equivalents to aid efficient management of the Sub-Fund or to enable the redemption of shares.

You can sell your shares any day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one business day before the day you want to sell. Your shares do not pay you income, but instead the Sub-Fund reinvests it to grow your capital.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

## Risk and Reward Profile

The risk category in this Sub-Fund is set at 5. It is calculated in line with the regulations and is based on a combination of the historic performance of the Sub-Fund since launch and an index or benchmark representing the performance of the assets in which the Sub-Fund typically invests for the period after launch.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

**Concentration Risk:** The investment strategy adopted by the Sub-Fund significantly limits the number of potential investments. The Sub-Fund generally holds 20 to 25 stocks and so it is more concentrated than many other funds. This means that the performance of a single stock within the portfolio has a greater effect on the price of the shares of the Fund.
