## Drakens Africa ex S.A. UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MontLake Management Limited USD Institutional Class Shares (IE00BD3S0560)

### Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek capital appreciation over the long term through investment in African securities (excluding South African securities). The Sub-Fund does not have a particular industry, sector or market capitalisation focus.

The Sub-Fund will invest in equities (i.e. shares) and equity-related securities (i.e. securities which have the potential to convert into equity in the issuer). The equities and equity-related securities in which the Sub-Fund will invest will be issued by: (i) companies located in any country in Africa (excluding companies located in South Africa); (ii) the government of any country within Africa (excluding South Africa) or any of its agencies or instrumentalities or any local government in any such country; and (iii) companies and other entities based outside Africa (excluding South Africa) whose income or assets are substantially derived from or which, as holding companies, hold the predominant portion of their participations in companies located in any or all of such countries.

The Sub-Fund may also invest in collective investment schemes and exchange traded funds or ETFs which provide exposure to the securities and other investments listed above and that are consistent with the investment objectives of the Sub-Fund.

The Sub-Fund may also use derivatives for currency hedging purposes. Derivatives used may include exchange and over the counter traded derivatives, namely forward foreign exchange contracts and foreign exchange futures.

You may sell your shares in the Sub-Fund on any business day that banks are open in Ireland and South Africa. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one day prior to the business day on which you want to sell.

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and Reward Profile

The risk category in this Sub-Fund is set at 5. It is calculated in line with the regulations and is based on a combination of the historic performance of the Sub-Fund since launch and an index or benchmark representing the performance of the assets in which the Sub-Fund typically invests for the period before launch.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

**Emerging and Frontier Markets Risk:** Emerging and frontier markets that are at an early stage of development typically experience higher levels of return fluctuation than well-established economies. Political and economic challenges may temporarily result in illiquid markets, higher volatility in process and currencies, higher inflation, greater controls on foreign investment, less protection of assets and less developed laws to protect investors.

**Liquidity Risk:** The Sub-Fund may not be able to sell an investment at the time and price that is most beneficial to the Sub-Fund and may be unable to raise cash to meet redemption requests as a result.

**Counterparty Risk:** A counterparty may fail in paying the proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.
