

# KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## New Mountain Vantage Long Only UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MontLake Management Limited CHF Institutional Class A Shares (IE00BYPJQQ76)

### Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek capital appreciation over the medium to long term.

To achieve this objective, the Sub-Fund will primarily invest in U.S. equities and equity-related securities, with a limited amount of investment in non-US equities. The Sub-Fund will seek to invest based on fundamental research in high quality companies whose securities are substantially undervalued relative to the intrinsic value and where there are opportunities for price appreciation.

The Sub-Fund is not subject to any specific industry sector constraints on target investments, but will generally focus on certain industries such as healthcare (i.e. speciality pharma, hospitals), business services (i.e. payroll services, benefits services and information services), the technology sector (i.e. payment processors, software), media (paid television operators, cable networks) and the energy sector (typically, energy services related companies).

The Sub-Fund may utilise forward contracts for currency hedging purposes only. A forward contract gives the owner the right to buy or sell an asset at a specified future date. The Sub-Fund may also gain exposure through the use of ETFs to U.S. interest rates and commodities for hedging purposes only.

You can sell your shares on any day that banks are open in Ireland and United States. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one business day before the day on which you want to sell.

Your shares do not pay you income, but instead the Sub-Fund reinvests any income to grow your capital.

As your shares are denominated in Swiss Francs and the Sub-Fund is valued in U.S. Dollars, forward contracts are used with the aim of limiting the effects of changes in the currency exchange rates against U.S. Dollars.

The Sub-Fund is actively managed, meaning the Investment Manager will actively select, purchase and sell securities with the aim of meeting the investment objective of the Sub-Fund. The Sub-Fund's performance is measured relative to the S&P 500 Total Return Index ("the Index") for the purposes of the performance fees payable by the Sub-Fund. The Index does not define asset allocation of the Sub-Fund and depending on market conditions the Sub-Fund may deviate significantly from the Index.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and Reward Profile

The risk category for this Sub-Fund is set at 5. It is calculated in line with the regulations and is based on a combination of the historic performance of the Sub-Fund since launch and an index or benchmark representing the performance of the assets in which the Sub-Fund typically invests for the period before launch.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Historical data such as is used in calculating the synthetic indicator, may not be a reliable indication of the future risk profile of the Sub-Fund.

**Market Risk:** The Sub-Fund invests in shares and the value of these shares may go down as well as up. Investors may not get back the original amount invested.

**Liquidity Risk:** Securities in which the Sub-Fund invests may be sold below their intrinsic valuation due to insufficient liquidity in the market.

**Counterparty Risk:** A counterparty may fail in paying the proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

## Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	1.40%
Charges taken from the fund under certain specific conditions	
Performance fee	None

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year. It does not include portfolio transaction costs.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at [www.montlakeucits.com](http://www.montlakeucits.com).

## Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Swiss Francs.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2016. This share class has yet to launch.
