

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

July 2021

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in June were up down 2.29% in Euros, down 2.30% in USD, and down 2.93% in GBP. For the year, Class A units are up 10.26% in Euros, up 6.85% in USD, and up 5.06% in GBP.

July proved to be a more difficult month for the strategy as the start of the Q2 reporting season brought the issue of input inflation into focus. Fever Tree and Reckitt Benckiser (RB), amongst others, both warned that near term margins would be impacted by a variety of inflation related issues. To put things into context, RB noted that its input cost bill would be between 8% and 9% ahead of what it thought back in February. RB expects the additional input inflation would translate into a c.120bp FY21 Gross Margin hit. This is a large headwind to deal with in the short term, but also a very manageable one to deal with longer term. RB estimates that it has already put in supply and product pricing strategies to mitigate nearly half of the extra costs. This means near term profits should be 3% to 4% worse off than planned. Unsurprisingly, this shortfall should be dealt with additional supply and pricing strategies as we head into the new financial year. One of the key attractions of the consumer staples industry is its attractive gross margin level, combined to relatively low asset intensity (i.e., not many big factories that need replacing at much higher prices in the future) in addition to decades of data showing that it can cover inflation through moderate and consistent pricing (but not price above inflation). We are therefore very confident that as the effect of rising inflation comes through more broadly, the staples industry and our strategy should prove extremely resilient to these rising pressures. The top three contributors in the month were Lindt, Campari and Estee Lauder. The top three detractors were RB, Nomad Foods and Fever Tree.

Fund Performance Since Inception (EUR)

Class A, net of fees / expenses. Fund launched on 14th Oct 2014 (=100)
Source: Ash Park

The monthly performance figures quoted above and overleaf represent the performance of the Ash Park Global Consumer Franchise UCITS Fund in the relevant currency class. Euro is the base currency of the fund and is the best indication of fund performance. These performance figures refer to the past and past performance is not a reliable guide to future performance.
