

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MontLake Abrax Merger Arbitrage UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MontLake Management Limited GBP Retail Class Pooled Shares (IE00BZ01DC00)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to achieve absolute return over the medium term.

The Sub-Fund will primarily invest in equity and debt securities of companies that are involved in mergers, acquisitions or share class reorganisations globally.

While the Sub-Fund is not subject to any specific industry/sector or geographic constraints, it will primarily focus on North America, Europe and developed markets in the Asia Pacific region. The Sub-Fund's exposure to corporate debt securities shall not exceed 30% of the net asset value of the Sub-Fund.

The Sub-Fund may also gain exposure to financial indices for hedging purposes. The indices which the Sub-Fund may use will be the major families of indices in global equity markets, such as S&P, Nasdaq and EuroStoxx indices.

The Sub-Fund may use derivatives such as options, contracts for difference and swaps to make its investments, and for hedging purposes. The Sub-Fund can use forward foreign exchange contracts to hedge its currency exposures. A derivative is a contract between two or more parties whose value is based on an agreed-upon underlying financial asset, index or security.

The Sub-Fund may use derivatives to take short positions as part of its investment strategy. This means the Sub-Fund will make a profit if the value of the investment goes down, but it will lose money if the value of the investment goes up. Unless the loss is capped or offset by another investment, such losses could theoretically be unlimited.

The value of the Sub-Fund's long positions may be up to 300% and short positions up to 200% of the Net Asset Value of the Sub-Fund in normal market conditions, but may be more or less than this depending on changes in market conditions and the level of the type of corporate activity that represents opportunities for the investment strategy of the Sub-Fund.

The Sub-Fund may also invest in open-ended exchange traded funds and other open-ended collective investment schemes which enable the Sub-Fund to achieve its investment objective. The Sub-Fund may also invest in cash and money market instruments for cash management purposes.

The Sub-Fund is actively managed, meaning the Investment Manager actively selects and invests the securities in which the Sub-Fund invests with the aim of meeting the investment objective of the Sub-Fund, and is not managed with reference to any benchmark.

You may sell your shares in the Sub-Fund any day that banks are open in Dublin, Ireland and London, United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one business day before the day on which you want to sell.

Your shares do not pay you income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are in Sterling and the Sub-Fund is valued in U.S. Dollars, forward contracts are used to attempt to eliminate the effects of changes in the share class currency rates against the U.S. Dollar.

The Sub-Fund is actively managed, meaning the Investment Manager actively selects and invests the securities in which the Sub-Fund invests with the aim of meeting the investment objective of the Sub-Fund, and is not managed with reference to any benchmark.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk category for this Sub-Fund is set at 7. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Transaction Risk: There is a risk that the transaction in which a company is involved will be unsuccessful, take considerably longer than expected or will result in a distribution of cash or a new security the value of which is less than the cost of the Sub-Fund's original investment. Similarly, if a transaction does not occur, the Sub-Fund may be required to sell its

investment at a loss.

Short Selling Risk: The Sub-Fund may create synthetic short positions through the use of derivatives. Short positions behave differently from long positions, and the Sub-Fund can for example come under pressure to close out short positions at short notice, and before an offsetting long position can mature. This can create unexpected losses from positions that might otherwise have been seen as low risk or well hedged.

Credit and Counterparty Risk: A counterparty may fail in paying the proceeds of sale for assets sold by the Sub-Fund or may fail in delivering securities purchased by the Sub-Fund. Debt securities which have a lower credit rating are generally considered to have a higher credit risk and a greater possibility of default than more highly rated or investment grade securities.

Leverage Risk: Leverage arises from entering into derivatives whose terms have the effect of magnifying an outcome meaning the profits and losses from investment can be greater than if the investment is made directly into the underlying securities.

Derivatives Risk: The Sub-Fund may use derivative instruments which are not traded on a market and may experience difficulty in selling or closing out a derivatives position if the counterparty is unwilling to agree release the Sub-Fund from its contract at a market price.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	Up to 5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	3.39%
Charges taken from the fund under certain specific conditions	
Performance fee	20.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charge figure is based on an estimate of the charges. This figure may vary from year to year. It does not include portfolio transaction costs or performance fees. In the last financial year ending 31 December 2019, the performance fee amounted to 0.26%.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

There is insufficient data to produce a useful indication of past performance for the Share Class.

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in Sterling.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2019. This share class launched on 19 September 2019.

Practical Information

About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

MontLake Abrax Merger Arbitrage UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other Sub-Funds on MontLake UCITS Platform ICAV.
