

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Descartes Alternative Credit UCITS Fund

a Sub-Fund of MontLake UCITS Platform ICAV managed by Waystone Fund Management (IE) Limited
GBP Institutional Class A Pooled Shares (IE00BJCWT320)

Objectives and Investment Policy

Investment Objective

The Sub-Fund's investment objective is to generate attractive risk adjusted returns.

Investment Policy

The Sub-Fund will seek to achieve its investment objective by investing on a long only basis in a diversified portfolio of structured finance securities ("SFS"), in particular in the form of European collateralised loan obligations ("CLOs") which will be listed or traded on a Recognised Market. It is anticipated that the Sub-Fund may invest up to 100% of its Net Asset Value in CLOs. The Sub-Fund may also invest in other types of SFS, being asset backed securities ("ABS") and mortgage backed securities ("MBS").

In general terms, SFS are securities that entitle their holders to receive payments that depend on the cash flow from an underlying portfolio of collateral. They are usually issued in multiple tranches with different entitlements to the interest and principal proceeds generated by the collateral.

Performance depends mainly on the performance of the collateral, which may be managed or static, and on structural terms.

CLOs are traded securities which are backed by a pool of debt. The issuers of the CLOs in which the Sub-Fund will invest will be established as companies and trusts solely for the purpose of issuing CLO tranches. Such companies and trusts will be located in Europe and the underlying credit exposure of such CLOs will be primarily to European and U.S. assets.

The Sub-Fund may also invest up to 10% of its net assets in open-ended exchange traded funds and other open ended collective

investment schemes which enable the Sub-Fund to achieve its investment objective. The Sub-Fund may also invest in cash and money market instruments for cash management purposes.

Subscription and Redemption

You may sell your shares in the Sub-Fund on any Wednesday that banks are open in Ireland, United Kingdom and France. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. 5 business days before the day on which you want to sell.

Income

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Fund Currency

As your shares are denominated in GBP and the Sub-Fund is valued in EUR, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates.

Benchmark

The Sub-Fund is actively managed, meaning the Investment Manager actively selects and invests the securities in which the Sub-Fund invests with the aim of meeting the investment objective of the Sub-Fund, and is not managed with reference to any benchmark.

Investment Horizon

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

Why is the Sub-Fund in the specific category?

The risk category for this Sub-Fund is set at 5. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

Risk Disclaimer

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund, it may happen that not all material risks were fully captured in the methodology:

Credit and Counterparty Risk: A counterparty may fail in paying the proceeds of sale for assets sold by the Sub-Fund or may fail in delivering securities purchased by the Sub-Fund. The Sub-Fund may also incur the risk that a counterparty may fail to settle a transaction

in accordance with its terms and conditions because the contract is not legally enforceable or because it does not accurately reflect the intention of the parties or because of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Sub-Fund to suffer a loss.

Leverage Risk: The use of derivatives, the terms of which have the effect of magnifying the outcome of an investment in the underlying asset, to create leverage means that as well as the profits, the losses from the investment can be greater than if the investment is made directly into the underlying shares. In addition, unless the losses are capped in some way or offset by another investment, such losses could theoretically be unlimited.

Liquidity Risk: The Sub-Fund may not be able to sell an investment at the time and price that is most beneficial to the Sub-Fund and may be unable to raise cash to meet redemption requests as a result.

CLO Risk: The sub-fund invests in CLOs, which covers a wide range of securities each of which is backed by a particular type of asset. The Sub-Fund may be susceptible to losses resulting from defaults within the CLO portfolios. Furthermore the liquidity of the CLOs may be reduced in times of stressed and volatile markets.

For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after the investment	
Entry charge	None
Exit charge	None
This is the maximum that may be deducted from the investor's money before it is invested or before the proceeds of the investment are paid out.	
Charges debited to the Fund over a year	
Ongoing charge	1.22%
Charges debited to the Fund under certain specific conditions	
Performance fee	10.00% of the appreciation of the NAV, once the hurdle rate, 2.5%, is attained. In the Fund's last financial year the performance fee was 0.79% of the Fund.

Any entry/exit charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the twelve months ending December 2021. This figure may vary from year to year. It excludes portfolio transaction costs and performance fees.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

The past performance takes account of all charges and costs.

Past performance is not a reliable indicator of future results.

The Sub-Fund came into existence in 2019.

This Share class was launched on 7 August 2019.

The value of the Share Class is calculated in GBP.
