

# Crabel Advanced Trend UCITS Fund

## CTA/Managed Futures

June 2021

### Performance Returns

The Crabel Advanced Trend UCITS Fund returned -4.02% during the month of June (USD Founder Class).

### Investment Objective & Strategy

The Crabel Advanced Trend UCITS Fund is advised by Los Angeles based managed futures trading pioneer, Crabel Capital Management, LLC. Crabel Advanced Trend is a portfolio of systematic trading strategies designed to efficiently capture long-term trend following returns across a diverse set of global futures and foreign exchange instruments. The program aims to generate greater alpha and deliver a more competitive risk-adjusted return than the broader trend following industry. In pursuing this objective, Crabel Advanced Trend employs multiple price-based strategies engineered to identify and profit from continuations in price movement across approximately 200 markets globally. The program seeks to mitigate downside risk by dynamically sizing trades relative to market volatility, actively employing the use of stops on all trades throughout the portfolio, and effectively diversifying overall portfolio volatility across market sectors and geographic regions. Individual positions are generally held for 35-45 days, and the portfolio in aggregate targets an annualized standard deviation of 15%.

### Monthly Commentary

The Crabel Advanced Trend UCITS Fund struggled to a loss of -4.02% in June, which reduced the year-to-date return to +5.49%. The foreign exchange sector was particularly difficult for the month and accounted for most of the losses. While equities and fixed income were generally quiet, with small month-on-month price moves, foreign exchange saw a significant change in direction as the US Dollar appreciated meaningfully against most other currencies. The move in the US Dollar represented a strong correction from the long-term trend. Seven of the ten most difficult markets in June were foreign exchange markets, with the British Pound, Canadian Dollar, and Swiss Franc among the most challenged. However, there were several bright spots. Energy markets showed significant price movement and opportunity. While the commodity sector overall traded to a flat result, several energy markets were valuable during the month. Crude Oil, Brent Crude, UK Natural Gas, and Natural Gas were four of the five best performing markets on the month. Overall, the first half of 2021 proved useful for Advanced Trend. Commodities and equities performed well, while to a lesser extent foreign exchange and fixed income posted losses.

### Why Advanced Trend?

- **Thoughtful Design.** Intuitive research into time-frame selection, sector exposure, volatility interpretation and trend quality identification is leveraged to maximize trend capture.
- **Aggressive Trading Cost Reduction.** The cost to execute a trend following strategy adds up far more quickly than is realized. Trade slippage is reduced through Crabel's proprietary algorithmic execution infrastructure.
- **Structurally Diversified.** The program is timeframe and sector diversified trading a broad array of derivative instruments.

### The Manager

Crabel is a global alternative investment firm specializing in systematic, automated trading of worldwide futures and foreign exchange. Our Los Angeles based firm was founded by short-term trading pioneer Toby Crabel and has delivered over 25 years of uncorrelated returns for its institutional clients. The firm has developed a diverse array of trading strategies designed to systematically capture market anomalies implemented through a technologically advanced, low latency infrastructure. Global co-location facilities and proprietary execution algorithms allow the firm to efficiently trade in approximately 200 futures and foreign exchange markets.

**Grant Jaffarian**  
Portfolio Manager

Portfolio Manager of the Advanced Trend program, graduated from Wheaton College, IL with a double major in Economics and English in 2001. In 2010 Mr. Jaffarian received an MBA from University of Chicago. Mr. Jaffarian began his career at Belgium based Analytic Investment Management, a high turnover futures manager acquired by Robeco Bank. Upon leaving Analytic Investment, Mr. Jaffarian founded Petra Intraday, a short term systematic emerging manager. In 2004, Mr. Jaffarian joined Efficient Capital Management, LLC where he served as Chief Investment Officer before departing in December 2012. Mr. Jaffarian founded AlphaTerra, LLC in April 2013 to work with the world's most promising quant systematic trading strategies. In March 2014 AlphaTerra was acquired by Crabel Capital Management and Mr. Jaffarian assumed the role of Portfolio Manager for the Advanced Trend program while also continuing to carry the title of CIO for AlphaTerra. Mr. Jaffarian joined the Crabel Executive Committee in April 2016.

**Michael Pomada**  
President & CEO

Michael Pomada is the President and Chief Executive Officer of Crabel Capital Management. In addition to his executive role, Michael is also the co-Portfolio Manager of Crabel Gemini and one of the chief architects behind the development of CCM's Advanced Trend strategy. Michael joined CCM in April 2008 as a portfolio manager focusing on CCM's Equity Main strategies and in late 2009, took on the responsibility of spearheading a firmwide initiative to improve the organization's trading infrastructure, execution process, and microstructure research. He is a member of the firm's executive and investment committees and, before being named CEO in July 2016, was previously CCM's Chief Operating Officer. Prior to joining CCM, Michael spent time at UBS before moving on to manage portfolios at Manchester Trading (Niederhoffer) and Coast Asset Management. Michael began his career in the Interactive Entertainment industry. A graduate of the University of California - Berkeley, Michael also holds an MBA with a concentration in Investments and Statistics from the University of Southern California.
