

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Giano UCITS Fund a Sub-Fund of MontLake UCITS Platform ICAV, managed by MontLake Management Limited USD Class R Pooled Shares (IE00BFX0YD20)

Objectives and Investment Policy

The investment objective of the Sub-Fund is to seek capital appreciation over the long term.

The Sub-Fund will gain direct and/or indirect exposure to four asset classes, namely equities and equity-related securities, bonds, commodities and currencies.

The equities and equity-related securities in which the Sub-Fund may invest include but are not limited to warrants, common shares, preference shares, equity-linked notes (unleveraged debt securities linked to the performance of equities) and convertible securities.

The Sub-Fund will also gain exposure to bonds which may be issued or guaranteed by governments and/or supranational entities and/or corporate entities, fixed or floating rate, and have a rating of investment grade, or below investment grade.

The Sub-Fund may take indirect exposure to commodities through investing in collective investment schemes which have an exposure to commodities or in other securities representing exposure to commodities.

The Sub-Fund may gain long or short exposure to global currencies by trading over the counter foreign exchange forward contracts or currency futures.

The Sub-Fund may also invest in open-ended exchange traded funds and other collective investment schemes which enable the Sub-Fund to achieve its investment objective. The Sub-Fund may also invest in cash and money market instruments for cash management purposes.

The Sub-Fund may use derivatives (options, swaps, swaptions, contracts for difference, credit default swaps, futures and warrants and forward foreign exchange contracts) as an alternative way of investing, or to hedge part or all

of the investment risk in the Sub-Fund's portfolio. A derivative is a contract the value of which depends on the change in price of an agreed-upon underlying financial asset, index or security and which gives the holder the economic effect of an investment in the underlying asset without actually having to acquire it.

You may sell your shares in the Sub-Fund on any day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. three business days before the day on which you want to sell.

Your shares do not pay you income, but instead the Sub-Fund reinvests such income to grow your capital.

As your shares are denominated in US Dollars and the Sub-Fund is valued in Euro, forward contracts are used to attempt to eliminate the effects of changes in the currency exchange rates against the Euro.

The Sub-Fund is actively managed, meaning the Investment Manager actively selects and invests the securities in which the Sub-Fund invests with the aim of meeting the investment objective of the Sub-Fund, and is not managed with reference to any benchmark.

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and Reward Profile

The risk category in this Sub-Fund is set at 4. It is calculated in line with the regulations and is based on a combination of the historic performance of the Sub-Fund since launch and an index or benchmark representing the performance of the assets in which the Sub-Fund typically invests for the period before launch.

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2 Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.

Credit and Counterparty Risk: A counterparty may fail in paying the proceeds of sale for assets sold by the Sub-Fund or may fail in delivering securities purchased by the Sub-Fund. The Sub-Fund may also incur the risk that a counterparty may fail to settle a transaction in accordance with its terms and conditions because the contract is not legally enforceable or because it does not accurately reflect the intention of the parties or because

of a dispute over the terms of the contract (whether or not bona fide) or because of a credit or liquidity problem, thus causing the Sub-Fund to suffer a loss.

Derivatives and Leverage Risk: The Sub-Fund may use financial derivative instruments for taking short positions or for investment hedging purposes. Whilst this is intended to help the Sub-Fund to manage risk or to take investment positions more efficiently or effectively than could be done otherwise, derivatives can involve the use of debt to finance the purchase of assets (leverage) and the risk of higher volatility, especially if some of the expected offsetting positions between long and short investments do not work as expected, and the Sub-Fund may be exposed to additional risks and costs as a result.

Short Selling Risk: The Sub-Fund may create synthetic short positions through the use of derivatives. Short positions behave differently from long positions, and the Sub-Fund can for example come under pressure to close out short positions at short notice, and before an offsetting long position can mature. This can create unexpected losses from positions that might otherwise have been seen as low risk or well hedged.

Charges

The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	Up to 5.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out	
Charges taken from the Sub-Fund over a year	
Ongoing charge	2.60%
Charges taken from the fund under certain specific conditions	
Performance fee	15.00% of the increase in the NAV per share over the previous highest NAV per share on which performance fee was paid.

Any entry charge shown is a maximum figure. Where charges are shown in some cases you might pay less; you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the twelve months ending December 2019. This figure may vary from year to year. It excludes portfolio transaction costs and performance fees. In the last financial year ending 31 December 2019, the performance fee amounted to 0.00%.

You can find out more details about the charges and how they are calculated by looking at the Sub-Fund's prospectus and supplement which are available at www.montlakeucits.com.

Past Performance

The past performance takes account of all charges and costs.

The value of the Share Class is calculated in US Dollars.

Past performance is not a reliable indicator of future results.

The Sub-Fund merged with Odey Giano Fund, another UCITS, on 11 July 2018. The performance shown represents the performance of the corresponding share class of Odey Giano Fund up to the merger date.

The Sub-Fund came into existence in 2018. This share class launched on 11 July 2018.

Practical Information

About the Sub-Fund

The Sub-Fund's assets are held with its depositary, Northern Trust Fiduciary Services (Ireland) Limited.

Giano UCITS Fund is a Sub-Fund of MontLake UCITS Platform ICAV. The assets of this Sub-Fund are segregated from other Sub-Funds on MontLake UCITS Platform ICAV. This means that the holdings of the Sub-Fund are held separately under Irish law from the holdings of the other Sub-Funds of MontLake UCITS Platform ICAV.

You may switch your shares to the shares of another Sub-Fund of MontLake UCITS Platform ICAV free of charge.

This Sub-Fund is subject to tax laws and regulations of Ireland. Depending on your home country of residence, this might have an impact on your investment. For further details, please speak to your adviser.

MontLake UCITS Platform ICAV may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate, or inconsistent with the relevant parts of the prospectus for MontLake UCITS Platform ICAV.
