

Ash Park Global Consumer Franchise UCITS Fund

Global Consumer Franchise Equity

February 2022

Fund Overview

The Ash Park Global Consumer Franchise UCITS Fund is managed by a London-based team with extensive experience covering consumer companies. The Ash Park fund pursues a long-only, 'Buy-and-Hold' strategy focused solely on global Food, Beverage, Tobacco and Household & Personal Care companies (together, the 'Consumer Staples' sector). These companies have historically produced higher long-term returns than the market, and with lower volatility, and the sector tends to combine attractive income generation with inflation protection and growth, supported by brands and franchises which have often been built over decades, even centuries.

The Ash Park fund does not measure itself against any benchmark but has the objective of beating inflation consistently, with low risk and low volatility, through the ownership of high-quality Consumer Staples stocks that it believes are capable of growing their earnings and cash flows at attractive rates almost indefinitely. The Ash Park fund seeks to balance its desire to own the best quality stocks with a need to diversify its portfolio risk. However, its holdings will be concentrated (typically c.20 stocks) and it will be aiming for low turnover.

Monthly Portfolio Comment

Class A units in the Ash Park Global Consumer Franchise UCITS Fund in February were down 1.27% in Euros, down 1.07% USD, and down 1.08% in GBP. For the year, Class A units are down 4.03% in Euros, down 5.21% in USD, and down 4.32% in GBP.

The Fund proved resilient under ongoing volatile market conditions. February is also a busy month on the earnings front, and there were many contrasting trends to report on. As we have remarked on several occasions, our exposure to the Japanese beauty market has been a drag on our returns in recent months, given the rolling extension of the State of Emergency in Japan. However, the FY reporting season showed that market demand in Japan is growing once more, whilst Chinese demand proved extremely strong despite numerous headlines suggesting otherwise. Although the outlook views on the return of Asian travel differ, the potential for recovery remains very significant in what remains the only large global beauty market yet to recover from Covid-19 constraints. Elsewhere, the impact of inflation started to be seen across results in the form of higher price-led growth (i.e., revenue growth tending to beat estimates), to then be offset through margin weakness. What was maybe most important though, and particularly witnessed through Unilever and Heineken, was the need to keep investing through such periods rather than look to smooth earnings out. History has shown over an extended period that this is the best way to deal with inflation, something the sector has always managed in the past. Finally, as the market rotated from growth towards value, it is not surprising to see several of our 'high PE' holdings featuring in the detractors list, matched by the ongoing buoyancy of our tobacco holdings. With markets set to remain volatile, we feel very confident that our portfolio of highly cash-generative companies should come out stronger from the ongoing market dislocation. The top three performers in the month were Kose, Shiseido and BAT. The top three detractors were L'Occitane, Fever-Tree, and Campari.

Fund Performance Since Inception (EUR)

Class A, net of fees / expenses. Fund launched on 14th Oct 2014 (=100)
