Trinity Street Global Equity UCITS Fund

a Sub-Fund of MontLake UCITS Platform ICAV managed by Waystone Fund Management (IE) Limited
USD Class E Pooled Shares (IE00BKM63Y05)

Objectives and Investment Policy

Investment Objective

The investment objective of the Sub-Fund is to provide shareholders with a return through long-term capital growth.

Investment Policy

The Sub-Fund will invest in shares of companies located in developed markets and, to a limited extent, in emerging market countries. The Sub-Fund will focus primarily on mid to large capitalisation companies, with some focus on small capitalisation companies. The Sub-Fund's allocation of investments is not predetermined and can be made across all types of economic sectors, regions or countries, although investment in any one country, except the US, will be limited to 30% of the Sub-Fund's net asset value.

The strategy of the Sub-Fund is to invest at any given time in around 20-35 companies (although it may have up to 50 investments) undergoing some kind of change, the value of which has not yet been recognised by the market and which is expected to lead to price appreciation in the company's stock.

The Sub-Fund will limit investment in small capitalisation companies and companies in emerging markets to 30% of net asset value, and will not make investments in companies with less than US\$2 billion in publicly traded securities at the time of investment.

The Sub-Fund may also invest in open-ended exchange traded funds and other open ended collective investment schemes which enable the Sub-Fund to achieve its investment objective. The

Sub-Fund may also invest in cash and money market instruments for cash management purposes.

Subscription and Redemption

You may sell your shares in the Sub-Fund on any day that banks are open in Ireland and the United Kingdom. You must submit your application to the Sub-Fund's Administrator before 1.00 p.m. one business day before the day on which you want to sell.

Income

Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Benchmark

The Sub-Fund is actively managed, meaning the Investment Manager will actively select, purchase and sell securities with the aim of meeting the investment objective of the Sub-Fund. The Sub-Fund's performance is measured relative to the MSCI All Countries World Total Return Net Index (USD) ("the Index") for the purposes of the performance fees payable by the Sub-Fund. The Index does not define asset allocation of the Sub-Fund and depending on market conditions the Sub-Fund may deviate significantly from the Index.

Investment Horizon

Recommendation: the Sub-Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Why is the Sub-Fund in the specific category?

The risk category for this Sub-Fund is set at 6. It is calculated in line with EU regulations and is based on the risk limit for the Sub-Fund.

Risk Disclaimer

A **category 1** Sub-Fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **category 7** Sub-Fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex. For example, a category 2

Sub-Fund is not twice as risky as a category 1 Sub-Fund. The risk category shown is not guaranteed and may change over time.

When categorising the Sub-Fund, it may happen that not all material risks were fully captured in the methodology:

Liquidity Risk: Securities in which the Sub-Fund invests may be sold below their intrinsic value due to insufficient liquidity in the market.

Counterparty Risk: A counterparty may fail in paying proceeds of sale of assets to the Sub-Fund and/or may fail in delivering securities purchased by the Sub-Fund.

For a more detailed explanation of risks, please refer to the "Special Considerations and Risk Factors" section of the prospectus.
